OTC-15 | MANAGEMENT SYSTEMS

Integrated Management System Internal Auditor

SUGGESTED DURATION: 3 DAYS | IN-COMPANY / LIVE ONLINE

Plan integrated audits across quality, environment and occupational health and safety. The course combines shared management-system processes with discipline-specific evidence.

WHO SHOULD ATTEND

Internal auditors, IMS coordinators, quality/EHS managers, engineers and management representatives.

WHAT PARTICIPANTS WILL BE ABLE TO DO

- Map common and distinct requirements across ISO 9001, ISO 14001 and ISO 45001.
- Plan a risk-based integrated audit using ISO 19011 guidance.
- Conduct interviews, write findings and review corrective-action closure.

SUGGESTED PROGRAMME OUTLINE

Day 1 | Integration and audit preparation

Context, leadership, planning and support; quality risks, environmental aspects and OH&S hazards; objectives and operational controls; audit programme, scope, criteria and auditor competence.

Day 2 | Conduct the audit

Process trails, sampling and objective evidence; opening meeting and interviews; contractor and maintenance process audits; distinguish observations from nonconformities; manage audit notes and uncertainty.

Day 3 | Report and close the loop

Finding statements, closing meeting and reporting; cause analysis and corrective action; verification and effectiveness; management review inputs; integrated mock audit and assessment.

OTC-15 | PRACTICAL APPLICATION & DELIVERY

Integrated Management System Internal Auditor

PRACTICAL WORKSHOPS

Integrated maintenance audit

Follow one maintenance job through quality, environmental and OH&S controls without duplicating interviews.

Audit closing meeting

Present evidence-based findings, respond to challenges and agree an action follow-up process.

PARTICIPANT TOOLS AND TAKEAWAYS

Integrated audit plan; process audit checklist; interview guide; report and corrective-action templates.

HOW LEARNING IS DELIVERED AND ASSESSED

Facilitated explanations, worked examples, case discussions and small-group exercises. A short baseline check establishes starting knowledge; a closing knowledge check and practical review assess learning. Assessment can be adapted for operators, technicians or experienced engineers.

CUSTOMISATION AND CLIENT INPUTS

Client IMS scope and procedures. Completion records describe Omtech training and assessment only; they do not establish certification-body accreditation or lead-auditor registration.

The agenda is indicative. Final content, duration, batch size, language and delivery arrangements are agreed after a training-needs discussion. Online delivery uses document reviews, calculations, role-play and case exercises; physical demonstrations require separate site arrangements.

FACILITATOR

Prem Prakash Mishra | Mechanical engineer, advisor and corporate trainer. Brings 39 years of career experience across Kuwait Oil Company, IPCL and NTPC, spanning projects, commissioning, maintenance, reliability, asset integrity and industrial audits. Specialist inputs, where needed, are agreed in the proposal.

COMPLETION AND FOLLOW-UP

An Omtech Corporation participation or completion certificate may be provided under the agreed assessment arrangements. This is company training, not an accredited professional qualification or a guarantee of certification. Post-training support is available with scope and duration agreed in the proposal.
