OTC-24 | SAFETY & WORKFORCE DEVELOPMENT

Technical Train-the-Trainer for Plant Experts

SUGGESTED DURATION: 3 DAYS | IN-COMPANY / LIVE ONLINE

Help experienced technical personnel turn knowledge into clear, practical learning. Participants build a short lesson, deliver it, receive feedback and improve its assessment and job application.

WHO SHOULD ATTEND

Plant SMEs, HODs, senior engineers, technical instructors and supervisors who train operators, technicians or engineers.

WHAT PARTICIPANTS WILL BE ABLE TO DO

- Define learning objectives for a specific job and participant level.
- Explain technical concepts using simple visuals, stories and structured practice.
- Design assessments and evaluate learning without relying on attendance alone.

SUGGESTED PROGRAMME OUTLINE

Day 1 | Design for the learner

Training needs and job tasks; audience experience and language; measurable objectives; lesson structure; explaining fundamentals; relevant stories, diagrams and worked examples.

Day 2 | Facilitate practice

Questions and discussion; mixed-experience groups; demonstrations and safety boundaries; case studies and role-play; online interaction; managing time and checking understanding.

Day 3 | Assess and improve

Pre/post assessment design; fair questions and marking criteria; observed practice and feedback; participant micro-teaching; trainer notes, job aids and transfer-to-work follow-up.

OTC-24 | PRACTICAL APPLICATION & DELIVERY

Technical Train-the-Trainer for Plant Experts

PRACTICAL WORKSHOPS

Micro-teaching laboratory

Deliver a short plant-topic lesson, receive peer feedback on clarity and engagement and revise the lesson plan.

Assessment design clinic

Write questions and a practical observation checklist aligned with a job task, including an answer key or scoring criteria.

PARTICIPANT TOOLS AND TAKEAWAYS

Lesson-plan template; trainer-note guide; assessment blueprint; facilitation checklist; personal trainer development plan.

HOW LEARNING IS DELIVERED AND ASSESSED

Facilitated explanations, worked examples, case discussions and small-group exercises. A short baseline check establishes starting knowledge; a closing knowledge check and practical review assess learning. Assessment can be adapted for operators, technicians or experienced engineers.

CUSTOMISATION AND CLIENT INPUTS

Each participant brings a short technical topic, existing slides or a job procedure. Delivery uses standard meeting/presentation tools; specialist simulators are optional.

The agenda is indicative. Final content, duration, batch size, language and delivery arrangements are agreed after a training-needs discussion. Online delivery uses document reviews, calculations, role-play and case exercises; physical demonstrations require separate site arrangements.

FACILITATOR

Prem Prakash Mishra | Mechanical engineer, advisor and corporate trainer. Brings 39 years of career experience across Kuwait Oil Company, IPCL and NTPC, spanning projects, commissioning, maintenance, reliability, asset integrity and industrial audits. Specialist inputs, where needed, are agreed in the proposal.

COMPLETION AND FOLLOW-UP

An Omtech Corporation participation or completion certificate may be provided under the agreed assessment arrangements. This is company training, not an accredited professional qualification or a guarantee of certification. Post-training support is available with scope and duration agreed in the proposal.
